

Specification Sheet

Part Number: 151-01311

Bundling clip allows bundle to be parallel, perpendicular or offset from the panel and mounting hole for routing versatility.

Compact I-beam design provides a robust solution for all bundles, small to large.

Used in conjunction with HellermannTyton's 4x oval push pins, bundling clip prevents rotation of the bundle.

Oval hole can also be used as a portable hole joining two routings together.
