

Super Scissors - PH-51

PRODUCT ID: 1599

Description

Save your scissors! Instead of using your nice shears (and dulling them) or wire cutters (not right for the job) - use these super scissors. They're meant for engineering/maker cutting jobs such as cutting plastic, leather, copper sheet/wire, even coaxial & ribbon cables. There's a notched flat section and a grippy tooth section.

Notched (front) section capabilities:

- Nylon/Kevlar fiber: Various types
- Copper braided wire: Various types
- Leather / Cork: Max. 5mm thick
- Aluminum/Copper sheet: max. 0.5mm thick
- Plastic plate / PET: max. 1.0mm thick
- PP / Polycarbonate: Max. 1.2mm thick

Toothed (back) section capabilities:

- Aluminum wire: Max. dia. 2mm
- Rope: Max. dia. 10mm
- Coaxial cable: 5C(conductor 1mm)
- PVC cable cord: 2 mm²(VCT4)
- Cotton insulated cord: Various types

Technical Details

- Max Dimensions: 205x85mm
- Blade Dimensions: 58mm
- Weight: 125g
- Material : Stainless Steel
- Hardness: Hardness: HRC56-60
