

203-0005-01

4 Pack of SchmartPatch for SOIC-8

Model# 203-0005-01

203-0005-01 4 Pack of SchmartPatch for SOIC-8

SchmartPatch allows you to add components to or replace components on any substrate such as a PCB(Printed Circuit Board). This SchmartPatch board allows you to cut off a pad, stick it on to the surface (with the adhesive already on the back of the SchmartPatch) and then solder a component onto the SchmartPatch. There are also pads to solder jumper wires to make the electrical connection. This board has 4 sets of pads that can be cut off as needed. Each of these pads support all components in any of the SOIC (1.27mm Pitch) packages up to 6 legs. 4 SchmartPatches are included.
