

Thank you for purchasing the MAXSA Park Right® Parking Guard. Just place the Parking Guard on the floor where you want to stop, to Park Perfectly Every Time!

Installation:

Affix the included yellow decals to both ends of the Parking Guard. The wider end of the decal goes on the end of the Parking Guard.

Pull off the white protector paper to expose the 3M tape and place the Parking Guard so the edge is where you want to stop.

Press and hold the Parking Guard firmly down for 30 seconds.

Attention: The Parking Guard must be installed on a clean, dry floor. If the floor is dirty or greasy, the adhesive will not adhere. Please clean your floor first.

Test by gently driving until the tire hits the Parking Guard.

Warning: This product can expose you to lead, a chemical which is known to the State of California to cause cancer, birth defects or other reproductive harm. For more information go to: www.p65.warnings.ca.gov

***We hope you will love this product.
MAXSA also creates innovative automotive accessories to help park your vehicle, to never get stuck in snow, sand or mud and when going off-road and to keep your car neat and organized.
We also make some great solar and battery-powered outdoor lights.***
