

3M Science.
Applied to Life.™

3M™ Solus™ Protective Eyewear

Protection when you need it.

Designed for workers who put on and take off
eyewear frequently throughout the day.

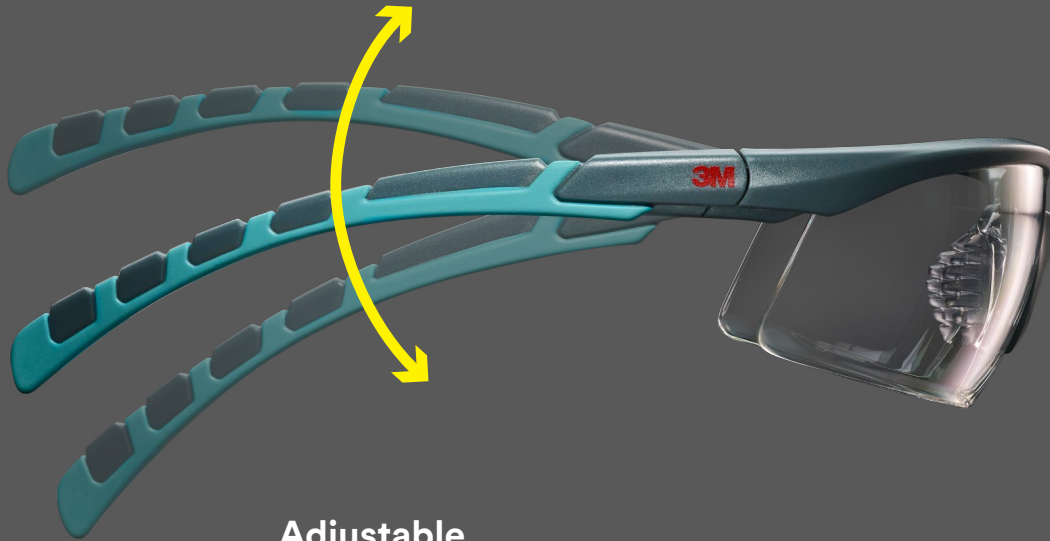

Convenient. Versatile. Rugged.

3M™ Solus™ Protective Eyewear

Easy to put on and take off throughout the day. Available in a variety of colors and lens tints, with foam gasket and strap options that allow you to configure the eyewear to suit your application. It's the style you want with the durability you need.

Designed for robust protection.

Adjustable Ratchet Temples *(select models)*

Multiple-position ratchet allows user to adjust lens for facial features and eyeglass position.

Removable Gasket *(select models)*

Helps limit eye exposure to dirt and debris.*

The benefits are clear.

Fogged lenses can be frustrating and dangerous. But 3M™ Solus™ With Protective Eyewear models featuring 3M™ Scotchgard™ Protector Anti-Fog Coating can help workers see clearly for longer, thanks to a formula that bonds the coating to the lens.

Uncoated

Microscopic water droplets bead up, forming condensation and fog, which obscure vision.

3M™ Scotchgard™ Protector Anti-Fog Coating

Reduced contact angle flattens water beads into a thin, transparent film that allows light to pass through.

3M™ Scotchgard™ Protector Anti-Fog Coating

- ▶ Resists fogging longer than traditional anti-fog coatings through up to 25 washings with water.*
- ▶ Helps provide scratch resistance in tough work environments.
- ▶ Designed for working in challenging situations, such as hot and humid conditions, indoor/outdoor work, physically demanding tasks and climate-controlled areas.

3M™ Solus™

Family of Eye Protection

Find the series with the right mix of features and value for you.

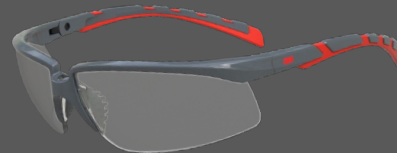

1000 Series

1000 TPE Series

2000 Series

CCS Series

1000 Series

Configurable design with detachable gasket, temple or strap options.

1000 Series

Sporty, low profile, available in multiple frame colors and lens tints with 3M™ Scotchgard™ Protector Anti-Fog Coating.

Removable foam gasket helps reduce eye exposure to particulate hazards (kit models)

Polycarbonate lenses absorb 99.9% of UVA and UVB rays

Meets the requirements of ANSI Z87.1-2020 Standard as an Impact Rated spectacle

1000 TPE Series

TPE Gasket offers robust protection with a flexible seal that adapts to contours of wearer's face.

1000 TPE Series

When used in combination with strap, TPE gasket helps provide additional debris, splash and dust protection.

Flexible TPE gasket adapts to wearer's facial contours to provide a tight seal and help protect against debris

Range of lens colors includes clear, gray, indoor/outdoor gray and amber

Polycarbonate lenses absorb 99.9% of UVA and UVB rays

Meets the requirements of ANSI Z87.1-2020 Standard as an Impact Rated spectacle

Contemporary styling with soft nosebridge for added comfort

3M™ Scotchgard™ Protector Anti-Fog/Anti-Scratch Coating

Padded temples for added comfort

Removable temples and optional elastic strap
Meets ANSI Z87.1 D3 splash protection with TPE gasket and strap

Kit options available to configure eyewear for specific applications; includes removable temples, removable TPE gasket and optional elastic strap

Get the job done in style.

3M™ GoggleGear™ Series

With models featuring 3M™ Scotchgard™ Protector Anti-Fog Coating, the 3M™ GoggleGear™ Series provides better fog and abrasion resistance when compared to traditional anti-fog coatings. All models are designed with indirect venting to help reduce fogging. Both adjustable nylon fiber cloth straps and neoprene straps are available to suit your comfort and style.

- ▶ Soft goggle shroud helps seal against face
- ▶ Comfortable nylon or neoprene strap
- ▶ Polycarbonate lenses
- ▶ Optional 3M™ Scotchgard™ Protector Anti-Fog Coatings

6000 Series

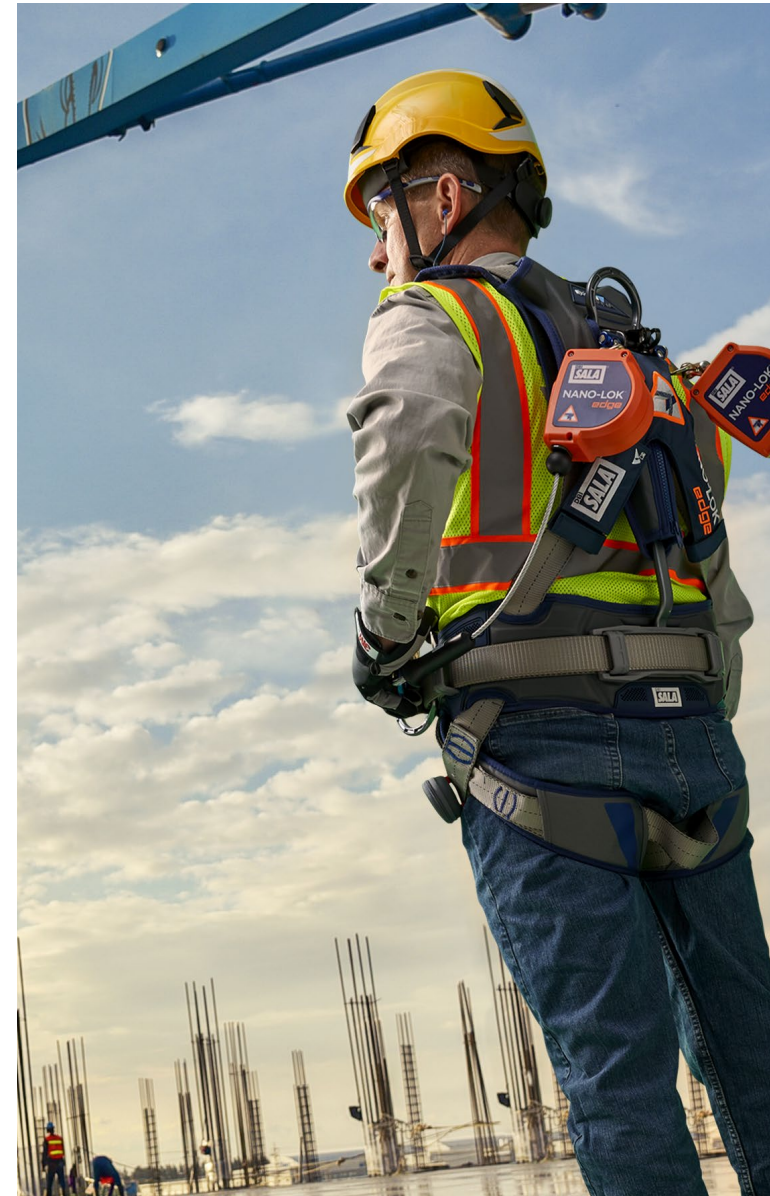

Additional resources

Fit testing

Eye injuries can occur even while wearing eye protection if the safety glasses do not fit properly. When fitted properly, eyewear should cover the soft tissue around the eye. Small spectacles on larger heads can leave exposed areas. Spectacles that are too large for a person can leave gaps. Selecting the proper eye protection for the task and ensuring proper-fitting eyewear can help to reduce worker eye injuries.

3M has developed a step-by-step method to ensure you can find your best-fitting protective eyewear, and can help you to validate properly fitting eyewear.
