

20-pin 0.1" Female Headers – Rainbow Color Mix – 5 pack

PRODUCT ID: 4160

Female header is like the duct tape of electronics. It's great for connecting things together, soldering to perf-boards, sockets for wires or break-away header, etc. We go through these real fast, and thought that given how handy they are, we'd offer them in a pack of five!

Each pack contains five candy-colored 20-pin 0.1" pitch female headers. These are a little extra special in that the plastic holding the pins together is made of colored plastic instead of classic black.

You get 1 of each color: red, yellow, white, green, and blue. This pack does not include black headers.

You can cut these down to different sizes fairly easily with diagonal cutters to cut in between pins.

We have a ton of different types, sizes, and shape headers in the store – check'em out!
