HellermannTyton

Specification Sheet

Part Number: TAG22J-994

HellermannTyton Inkjet labels are sheet fed for easy loading and fast printing.

Inkjet labels are made with high temperature materials and adhesives so that they will not be affected by the high heat of laser printing.

Inkjet labels are printable using toner for long term UV exposure.

Inkjet labels come in a variety of label sizes and types to fit most applications.

Product Description	HellermannTyton's ink jet self-laminating labels are smear resistant, allowing them to be handled immediately. The labels are made of a heat resistant 1mm polyester film with a strong acrylic based adhesive. The printable area is a special ink-receptive film that absorbs the ink as it is printed on an ink jet printer. Each sheet is smaller than the standard letter size (8.5" x 11".) Less waste results from the smaller sheet size because the user can print smaller quantities at one time. HellermannTyton's ink jet self laminating labels are also more convenient to store.
