

## Specification Sheet

Part Number: TAGPP2-788C

Clear polyester has a smooth surface, allowing for the highest resolution and print contrast.

The acrylic-based adhesive bonds to a wide variety of substrates and resists abrasion.

LaserTags are sheet fed for easy loading and fast printing.

LaserTags are made of high-temperature materials to withstand the high heat of laser printing.

Product Description HellermannTyton transparent/clear polyester labels are ideal for marking products where the visibility of the label needs to be minimized, such as consumer products, where the color of the housing needs to remain as clean looking as possible. The clear material allows the surface color to blend in with the printed text. These labels can also be used as an over-laminate to provide further protection for printed text in extreme environments.
