

Shelf bins

The dimensions of plastic shelf bins match all metric shelves, cabinets, and industrial workstations. The product family has 11 different bin sizes to choose from. The bins stack firmly on top of each other – including those that are different lengths but the same width. Straight sides and side-to-side dividers, available as accessories, ensure efficient use of space. A label with cover comes as standard with each bin.

- A corrugated bottom prevents small parts from sliding and makes picking easier
- A label with cover comes as standard
- Dividers to divide the bins into sections are available as accessories
- Barcode labels/labels also act as dividers
- Bright colors make product coding easier, see-through bins enable the bin's contents to be seen easily
- Bin depths 11.81", 15.75", 19.69", and 23.62", three different widths
- Three material choices: sustainable wood-based bio plastic Treston BiOX, 100% recycled plastic Treston ReBOX (Kennoset), and classic plastics in which colored bins are polypropylene (PP) and transparent bins are polystyrene (PS)
- Models with ESD protection are also available

Shelf bins (73)
