Extractor Tool
Instruction Sheet
Order No. 63813-0500

This tool is used for the removal of Sabre Product Wire-to-Wire and Wire-to-Board terminal series in both plug and receptacles.

OPERATION:

1. Push the terminal forward in the arrow direction before using the Extractor Tool as shown in Figure 1. Insert the Extractor Tool into the slot on the side of the connector housing.
2. Depress the terminal locking tang beams, push the terminal back through the connector slot and pull the terminated wire out in the arrow direction as shown in Figure 2.
3. Molex does not offer repair parts for Extraction Tools due to the inexpensive nature of the tool.
