

3M™ Ratchet Headgear H8A, 82501-00000 10 EA/Case

3M ID 70071513348, UPC 10078371825017

Specifications

Brand	3M™
Case Quantity	10
Color	Blue, Blue
Features	Faceshield Attachment, Ratchet Suspension
Height	6 Inch
Height (Metric)	15.24 Centimeter
Length	9 Inch
Length (Metric)	22.86 Centimeter
Material	Thermoplastic
Net Weight	226.8 oz
Product Type	Headgear
Recommended Application	Assembly, Cleaning, Demolition, Electrical, Facility Maintenance, Grinding, Machine Operations, Painting, Remediation, Sanding, Welding
Recommended Industry	Automotive, Construction, Food and Beverage Manufacturing, General Manufacturing, Metal Fabrication, Military Maintenance, Military Maintenance, Repair and Operation (MRO), Mining, Oil & Gas, Pharmaceutical, Repair and Operation (MRO), Transportation
Standards/Approvals	ANSI Z87.1
Weight	212 Ounce
Width	6 Inch
Width (Metric)	15.24 Centimeter

Details

- Ratchet headgear for use with 3M Faceshields (sold separately)
- High strength thermoplastic crown provides impact resistance
- Adjustable ratchet suspension with five position crown strap offers a customized fit
- Developed for use in metalworking, woodworking, utilities and many other industries
- Meets the high impact requirements of ANSI Z87.1-2003

Ratchet headgear for use with any 3M™ Faceshield. High-strength thermoplastic crown provides impact resistance and face protection. Adjustable ratchet suspension with five position crown strap.

3M™ Ratchet Headgear H8A, Face Protection 82501-00000, is a high-strength thermoplastic crown that provides impact resistance protection to the head. Use this headgear with 3M faceshields (sold separately) for combined head and face protection. Adjustability and a five position crown strap allow for a customized fit that is more comfortable to individual wearers. With an adjustable ratchet suspension, this headgear features a unique system that allows faceshield window replacement in seconds and helps provide a precise fit. This headgear gives users the option to switch out faceshields based on materials, sizes, shapes, and tints based on specific task requirements. Head protection is recommended for workers in metalworking, woodworking, utilities, and many other industries. Note: Even when this headgear is worn with a faceshield, workers should also use protective eyewear (sold separately) at all times.

This thermoplastic headgear meets regulated performance and safety requirements of ANSI Z87.1-2003. /p>

This headgear is recommended for workers in environments where head and face protection are necessary. Workers will need to supply a faceshield (sold separately) to use with this headgear. Buying the headgear alone allows workers to switch out the faceshield if that is necessary based on the type of work being performed.
