

The FD-220 Fluid Dispenser is designed to store and dispense cleaning fluids, such as isopropyl alcohol, to clean the end-faces of fiber optic cables. With a spill-proof lid, 220 ml capacity, and suction pump, this fluid dispenser is the most convenient way of carrying and dispensing cleaning fluid.

Features:

- Holds up to 220 ml of isopropyl alcohol or other cleaning fluids
- Twist-lock pump can be locked/unlocked with a simple twist
- Spill-proof lid holds fluid securely, preventing waste from spills and leaks
- Easy-to-use pump delivers a controllable amount of fluid with each press
