

New Models EC-200 & EC-200K Variable Temperature Heat Gun & Kit

Description: The new Master Model EC-200 is a 120V, 1200 Watt lightweight, ergonomically designed heat gun well suited for many automotive and commercial applications. It has a variable temperature dial that adjusts between 110°F and 930°F and a 3-position slide switch controlling fan speed Off-Low-High. The EC-200K kit comes with 4 nozzle attachments: reducer, shrink tubing reflector, and 2 spreaders as well as one flat metal scraper and one scraper handle with 3 interchangeable scraper blades.
