

Specification

Part No.	:	FS.700.A.10WW111
Product Name	:	I-Bar Response FirstNet Band 14 Adhesive Mount Antenna
Features	:	FirstNet Band 14 Ready 3M Adhesive Cable: 1 metre TGC-200 Connector: SMA(M) Straight RoHS Compliant

1. Introduction

The Response FS.700 FirstNet Wideband I-Bar Antenna is an external adhesive mount solution on glass and plastic for automotive and telematics applications. It covers not only FirstNet, but all Cellular, ISM and Wi-Fi working frequencies in the 700-6000 MHz spectrum. It has the highest wide-band efficiency in its range of any antenna in its category today.

FirstNet is a dedicated communications tool for First Responders in the US. It is an isolated network to provide faster critical information and data-sharing between First Responders and their agencies. New FirstNet devices are being deployed to allow for the multitude of services and applications which will be using the network for the following mission critical applications:

- Computer-aided dispatch (vehicle location)
- EMS Electronic Patient Care Reporting
- Vehicle Mounted RMS/ Citations/ Scanners
- Video Streaming

The FS.700 has been primarily designed for use with FirstNet modules, routers and devices that require the highest possible efficiency and peak gain to deliver best in class throughput on the FirstNet Band 14 for Public Safety applications.

It comes with 1 meter of coaxial cable and SMA (M) connector, in a low profile compact format for mounting via high quality first tier automotive approved 3M adhesive foam. Stable radiation is observed on both glass and plastic.

The FS.700 is backward compatible with all FirstNet applications and can be used in other required bands.

It is an ideal solution for any device requiring high, reliable performance. It will meet nearly all carrier certification requirements from an efficiency standpoint. The antenna also makes an excellent reference antenna for test purposes. It has been designed as an omni-directional antenna and the radiation patterns show this and are stable across all bands.

Cable and connectors are customizable, contact your regional Taoglas sales office for customization and additional support.

6 Packaging

1pc FS.700.A.10WW111 per PE bag
Bag Dimensions - 300*100mm
Weight - 127g

5pcs FS.700.A.10WW111 per Small Bag
Small Bag Dimensions - 450*280mm
Weight - 0.635Kg

50pcs FS.700.A.10WW111 per carton
Carton Dimensions - 330*260*240 mm
Weight - 6.5Kg

7 Application Note

The FS.700 antenna measurement with difference cable length and difference environments, the performance is shown as below,

7.1 Return Loss (in free space)

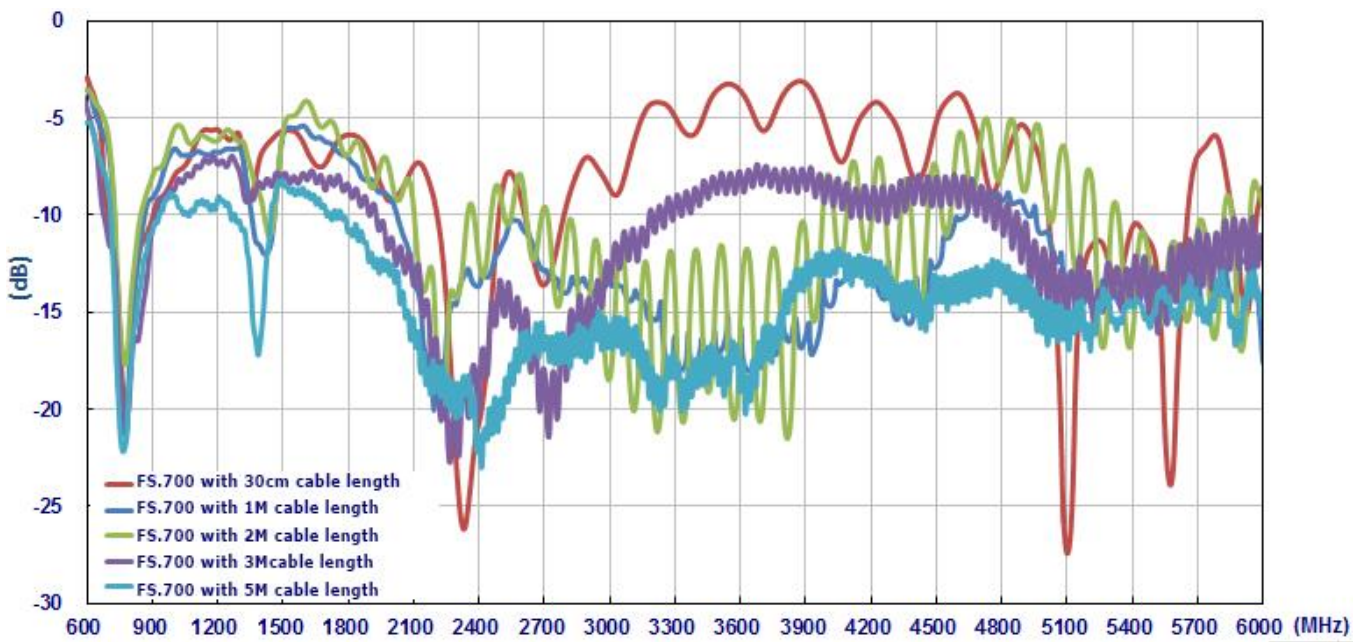

Figure 15. Measured the return loss of FS.700 Antenna with difference cable length
