

SPECIFICATION

- Part No. : MA603.A.ABK.001
- Product Name : Spartan Antenna 3in1 MA603
Low Profile Screw-Mount (Permanent Mount)
GPS/GLONASS/GALILEO Cellular/915MHz
combination antenna
- Features : Cellular
850/900/1700/1800/2100MHz
GSM/CDMA/UMTS/HSPA
GPS/GLONASS/GALILEO
1575~1602MHz 5dBiC
915MHz (902MHz~928 MHz) 3dBi
(incl. 3m cable)
IP67 Waterproof
High Efficiency / Peak Gain Outdoor Antenna
Advanced RF Design and Materials
Heavy Duty – Integrated Metal Base/
Ground-plane
Standard 3 meters low loss cables
Custom cables and connectors available
RoHS Compliant

1. Introduction

The Spartan MA603 antenna is a low profile, heavy-duty, fully IP67 waterproof external M2M antenna for use in telematics, transportation and remote monitoring applications.

The Spartan MA603 antenna is unique in the market because it combines 3in1 GPS/GLONASS/GALILEO, Cellular (3G/2G) and 915MHz antennas in a heavy-duty structure with high efficiency in a low profile compact format at 35mm (1.38”) profile Height. The antenna screws down permanently onto a roof or metal panel and can be pole or wall-mounted.

For industries such as commercial vehicle telematics, remote monitoring, smart meter systems, construction equipment, at only 35mm high, the Spartan provides an unobtrusive, robust, rugged antenna that is durable even in extreme environments.

Custom designed integrated wall mounted and pole mounted brackets are available for the Spartan antennas. These patent pending mounts allow for 180 degrees freedom of movement of the antennas for ease of positioning while also preventing access to the cables so they cannot be cut by vandals or thieves and also protecting the cables from long term weather exposure. The removal of unsightly cables also leads to a cleaner more professional installation and look, and makes the antenna less identifiable and more unobtrusive. Customized cable sleeves can be supplied for extra protection where required.
