Software add-on for integration and execution of MATLAB/Simulink models on Remote Field and Axioline controllers

Product description

"PLCnext Target for Simulink" allows automatic conversion of MATLAB/Simulink models into device-specific code for the controller being used. The controllers supported are listed in the technical documentation.

Your advantages

- Supported by PLCnext Technology
- Structured program implementation and simulation/verification in advance, thanks to model-based system design
- Early-stage system simulation and startup by means of "hardware in the loop"
- Quick and easy system testing by means of "Rapid Prototyping"
- Maximized system performance by means of gradual tuning by optimized controls
- Support for PLCnext model function blocks

Commercial data

Item number	1326100
Packing unit	1 pc
Minimum order quantity	1 pc
Note	Made to order (non-returnable)
Sales key	DR13
Product key	DRDBAC
GTIN	4063151617837
Weight per piece (including packing)	25.7 g
Weight per piece (excluding packing)	25.4 g
Customs tariff number	49119900
Country of origin	DE

Accessories

AXC F 1152 - Controller

1151412

<https://www.phoenixcontact.com/us/products/1151412>

PLCnext Control for the direct control of Axioline F I/Os. With two Ethernet interfaces. Complete with connector and bus base module.

AXC F 2152 - Controller

2404267

<https://www.phoenixcontact.com/us/products/2404267>

PLCnext Control for the direct control of Axioline F I/Os. With two Ethernet interfaces. Complete with connector and bus base module.

EPC 1502 - Edge device

1185416

<https://www.phoenixcontact.com/us/products/1185416>

PLCnext Industrial Edge Computer with Intel® Celeron® N3350 processor. This small form factor programmable edge device supports IEC 61131-3, MATLAB Simulink, C/C++, and is perfect for protocol converting, data collection, and cloud computing.

EPC 1522 - Edge device

1185423

<https://www.phoenixcontact.com/us/products/1185423>

PLCnext Industrial Edge Computer with Intel® Celeron® N3350 processor. This small form factor programmable edge device supports IEC 61131-3, MATLAB Simulink, C/C++, and is perfect for protocol converting, data collection, and cloud computing.
