

Infrastructure Solutions – Mission Critical

1U Rack Mount PDU, 12 Outlets (2 Front & 10 Rear), 20A, Circuit Breaker
Model: PD1220-RM

- Modular design for quick installation
- Scalable to match enterprise growth
- Optimized installation and operation costs
- Easy integration with all racks
- With over 40 years of leadership in core technologies of power electronics, the expert teams at Delta continuously innovate for next generation infrastructure solutions.
- Delta’s power distribution units (PDU) provide optimal power distribution for critical rack components. Delta offers a range of basic and metered PDUs for any application.

Model No.	
PD1220-RM	
Output	
Frequency Compatibility	50 / 60 Hz
Output Receptacles	12 (NEMA 5-20R)
Output Receptacle Orientation	2 Front / 10 Rear
Circuit Breaker (amps)	20A
Watts	2,500W
Input	
Voltage Compatibility	125V AC
Recommended Electrical Service	20A 120V AC
Input Connector	NEMA 5-20P
Input Cord Length	15 Ft
Input Cord Gauge	12 AWG x 3
User Interfaces	
Switches	Red illuminated 2 position switch
Buttons	Circuit function reset
LCD Display Meter	None
Physical Characteristics	
Unit Dimensions (inches)	19" (L) x 3.76" (W) x 1.68" (H)
Construction Material	Black Anodized Steel
Receptacle Color	Black
AC Line Cord	Black
Supported Form Factors	1U Horizontal Rack Mount
Regulatory	
Certifications	UL1363 (UR Status)
Warranty	
Product Warranty	3 Year limited warranty
