Respiratory Hygiene Station – Locking
### Installation Instructions/Characteristics & Care

Installation
Always mount dispensers securely *prior* to loading with product.

- Locking lid over all contents.

1

- Mount securely to a wall with screws approved and supplied by building maintenance.

2

Parts included:
- Dispenser

Tools Required:
- No tools required to assemble dispenser

Care and Construction
ABS Plastic

Material Characteristics

Designed for Long–Term, Heavy–Duty Applications

The combination of copolymers (Acrylonitrile, Butadiene, and Styrene) gives ABS an excellent combination of strength, rigidity, and toughness. The fauxwood finish is ARVINYL laminate created from a semi-rigid film.

ABS is chemical and stress-crack resistant. It is tough, dimensionally stable, and will hold up to long-term use. To ensure product longevity, fauxwood products should not be mounted in very hot or cold areas.

Care and Cleaning

Use mild soap and water to clean. Petroleum-based oils, solvents, and paints should not be used.

Standard hospital cleaning supplies are approved for use on our ABS plastic products.
