## Sodium bitartrate Data Sheet

<b>Catalog sizes</b>	<b>100g</b> , Listed as 100g Sodium bitartrate, 100BIT13 <b>500g</b> , Listed as 500g Sodium bitartrate, 500BIT13 <b>1kg</b> , Listed as 1kg Sodium bitartrate, 1000BIT13
<b>Category</b>	Levulinate and Other Salts
<b>Product specification</b>	White granular powder <ul style="list-style-type: none"><li>• Product ID : BIT13</li><li>• Purity : 98%+</li><li>• CAS : 526-94-3</li><li>• Molecular formula : C<sub>4</sub>H<sub>5</sub>NaO<sub>6</sub></li><li>• MW : 172.07g/mol</li><li>• MP : 250-256C</li><li>• Solubility : 85-93g/L in water</li></ul>
<b>Product description</b>	Sodium bitartrate (sodium hydrogen tartrate) is a monosodium salt of tartaric acid. It's common applications include: <ul style="list-style-type: none"><li>• acidity regulator</li><li>• tartrate and bitartrate synthon in reaction chemistries</li><li>• analytical reagent for testing for ammonium ions (white precipitate formed in the presence of ammonium ions)</li><li>• nonlinear optical material</li></ul>
