3 1/2 DIGIT with 0.56" LEDs in a NEMA type 1 Style Case

UM-35-SG
## Pressure or Load Cell Meter

An cost-effective meter to measure 4 wire pressure transducers, strain gauges and load cells. .

General Features

The UM-35-SG has two header selectable transducer output ranges of 2mV/V and 20mV/V. Both ranges can provide a full scale display of 2000 counts from the precision ratiometrically compensated 5V or 10V DC excitation provided by the meter. The meter accepts 4 Wire, and like all UM-Series meters, is easily scaled to display in engineering units such as psi, bar, kbar, kpa, feet, lbs, and tons.

Specifications

Input Configuration: ....Differential

Full Scale Ranges: ....Accepts inputs from 2mV/V or 20mV/V transducers

Excitation ....5V or 10V DC. Ratiometrically compensated to operate with all transducer output ranges.

A/D Converter: ....12 Bit Dual Slope

Accuracy: ....±(0.05% of reading + 2 counts)

Temperature Coefficient: 100 ppm/°C (Typical)

Warm Up Time: ....2 minutes to specified accuracy

Conversion Rate: ....3 conversions per second (Typical)

Display: ....3 1/2 digit 0.56" Red LED display (std), Green or Super Bright Red are optional. Range 0 to 1999 counts.

Decimal Selection: ....Header under face plate, X•X•X•X•

Over-range Indication: ....1 (MSD) displayed all other digits blank

Power Supply (PS6 std): Auto-sensing 85-305VAC or 120-430VDC, 50/60Hz App. 1W

(PS7 opt.) .Isolated (1.5kV) auto-sensing 9-36 VDC 1W

(PS11 opt.) ..Isolated (1.5kV) auto-sensing 36-75 VDC 1W

(PS8 opt.) .5VDC/200mA

Operating Temperature: ..–10 to 50 °C

Storage Temperature: .....–20 to 70 °C.

Relative Humidity: ....95% (non-condensing)

Case Dimensions: ....Bezel 3.78"Wx1.89"H (96mm x 48mm) Depth behind bezel 3.36" (83.5mm) Plus 0.5 to .9" (12.7 to 22.8mm) depending on connector used.

Weight: ....NW. 12oz (0.34kg)
15.6oz (0.44kg). when packed.

UM-Series utility meters for switchboard and process indication

UM-35-ACA ....AC amps,True RMS, (**1 or 5 Amp** internal shunt), 3.5 digit.

UM-35-ACV ......AC volts, True RMS. **199.9V AC**/700V AC header selectable ranges, 3.5 digit.

UM-35-DCA ....DC mV ±20mV/±50mV/ **±100mV**/±200mV header selectable ranges, 3.5 digit

UM-35-DCV .....DC Volts **±2V**/±20V/±200V DC header selectable ranges, 3.5 digit.

UM-40-ACV ....AC volts, True RMS. **199.9V AC**/700V AC header selectable ranges,4.0 digit.

UM-45-DCA .....DC mV ±20mV/±50mV/ **±100mV**/±200mV header selectable ranges, 4.5 digit

**UM-45-DCV** ....DC Volts **±2V**/±20V/±200V DC Header selectable ranges, 4.5 digit.

UM-35-CL ....Process 4 to 20mA **(100.0)**, easily user scalable in engineering units from –1999 to +1999. 3.5 digit

UM-35-HZ ....**15Hz** to **199.9Hz** or optional 40Hz to 400Hz up to 500V AC , 3.5 digit.

UM-35-SG ....Pressure, strain gage and load cell, 4 and 6 wire, 5V DC excitation, Header Selectable Sensitivity 2mV/V, 5mV/V, 10mV/V, **20mV/V**, 3.5 digit

UM-35-JF ....**J** thermocouple input, 1° resolution, order **°C** or **°F**, 3.5 digit

UM-35-KF ....**K** thermocouple input, 1° resolution, order **°C** or **°F**, 3.5 digit

UM-45-CL ....Process 4 to 20mA **(100.0)**, easily user scalable in engineering units from –19999 to +19999. 4.5 digit

Calibration Procedure

1. Select the appropriate position on the INPUT RANGE SELECT Header, to correspond with the mV/V output of the transducer being used.
2. Connect the transducer to the UM-35-SG as shown in the connection diagram.
3. With no pressure or load being applied to the transducer, adjust the ZERO pot so that the display reads 000.
4. Apply a known input, and adjust the SPAN pot until the meter displays the required reading for the pressure or load being applied.
. The UM-35-SG meter is now calibrated and ready for use.

Decimal Point Selection

Decimal selection is made by moving the jumper to the indicated position on the header for the decimal required on the front of the display board.

1X.XX
1XX.X
1XXX

Decimal Select Header

To open meter, insert a flat head screwdriver or similar instrument in both slots on the side of the cover and pry open. The UM-Series meters slide out from the front of the case as a complete assembly.

Signal Conditioning Components

SPAN Potentiometer (Pot)
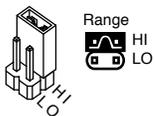

SPAN
To the Right Front
Turn Clockwise to Increase Reading

The 15 turn SPAN pot is always on the right side (as viewed from the front of the meter). Typical adjustment is 100% of the input signal range.

ZERO Potentiometer (Pot)

ZERO
To the Left Front
Turn Clockwise to Increase Reading

The Optional ZERO pot when installed is always to the left of the SPAN pot (as viewed from the front of the meter). Typically it enables the displayed reading to be offset ±100 counts.

Hi : 1001-1999 Counts
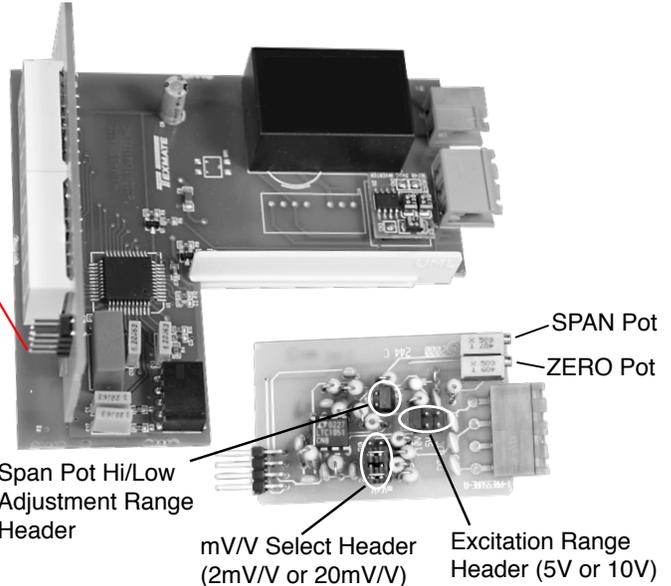

Optional Face Plate Descriptors

To customize the face plate, clear adhesive label containing various popular descriptors may be ordered. Choose the descriptor desired, peel off the adhesive backing and align the descriptor in the center right of the faceplate.

This meter uses plug-in type screw terminal connectors for all connections.

Connectors

This meter uses plug-in type screw terminal connectors for all input and output connections. The power supply connections (pins 14 and 15) have a unique plug and socket outline to prevent cross connection. The main board uses standard right-angled connectors.

Clear Lockable Water-proof Cover

The clear lockable cover is designed to be dust and waterproof to NEMA-4X, IP65 standards. The assembly consists of a base and a cover with a cam hinge and key-lock fastening mechanism. An O-ring, or neoprene gasket forms a seal between the base and the panel. The cam hinge prevents the cover from closing when opened until pushed closed. The cover has a tapered recess that, when closed, forms a seal with a tapered spigot on the base. A key-lock employs a cam locking device to force the spigot into the recess, ensuring seal integrity. A safety catch keeps the cover closed even when the key is removed, and the keyhole can be used to attach a safety seal clip, preventing unauthorized opening.

Warranty and User's Responsibility

WARRANTY

Texmate warrants that its products are free from defects in material and workmanship under normal use and service for a period of one year from date of shipment. Texmate's obligations under this warranty are limited to replacement or repair, at its option, at its factory, of any of the products which shall, within the applicable period after shipment, be returned to Texmate's facility, transportation charges pre-paid, and which are, after examination, disclosed to the satisfaction of Texmate to be thus defective. The warranty shall not apply to any equipment which shall have been repaired or altered, except by Texmate, or which shall have been subjected to misuse, negligence, or accident. In no case shall Texmate's liability exceed the original purchase price. The aforementioned provisions do not extend the original warranty period of any product which has been either repaired or replaced by Texmate.

USER'S RESPONSIBILITY

We are pleased to offer suggestions on the use of our various products either by way of printed matter or through direct contact with our sales/ application engineering staff. However, since we have no control over the use of our products once they are shipped, NO WARRANTY WHETHER OF MERCHANTABILITY, FITNESS FOR PURPOSE, OR OTHERWISE is made beyond the repair, replacement, or refund of purchase price at the sole discretion of Texmate. Users shall determine the suitability of the product for the intended application before using, and the users assume all risk and liability whatsoever in connection therewith, regardless of any of our suggestions or statements as to application or construction. In no event shall Texmate's liability, in law or otherwise, be in excess of the purchase price of the product.

Texmate cannot assume responsibility for any circuitry described. No circuit patent or software licenses are implied. Texmate reserves the right to change circuitry, operating software, specifications, and prices without notice at any time.
