

LABELS

Direct Thermal for v-series

The look and feel of paper with the moisture, oil and tear resistance of plastic film. Built from polypropylene and coated with a heat-sensitive finish, mydpi direct thermal labels are available in a range of sizes to fit your label printing needs. No ribbon needed.

These labels will last longer than paper labels and survive more challenging environmental conditions. Excellent for barcoding and labeling items such as: Asset Decals, Transport & Logistics, UPC, Automotive, Oil & Chemical, Electronics, Identification, and Aerospace.

COMPATIBILITY
