Solid handwheels with graduation

METRIC

MATERIAL

High-strength, reinforced phenolic based (PF) Duroplast, black colour, glossy finish.

RING

Matte anodised aluminium (ELESA original design).

Duroplast

GRADUATION RING

Matte anodised aluminium with black marks and numbers. Left-hand graduation (it increases as handwheel is turned clockwise) with 0, 10, 20... 90 numbering (100 dividing marks).

STANDARD EXECUTION

Black-oxide steel hub, H7 reamed hole with keyway. Fold-away handle IR.302 (see page 671) in Duroplast.

HOLE FOR BLOCKING THE ADJUSTMENT

Brass boss at a distance R from the centre: hole (f) can be threaded M6 and used to couple other blocking elements.
