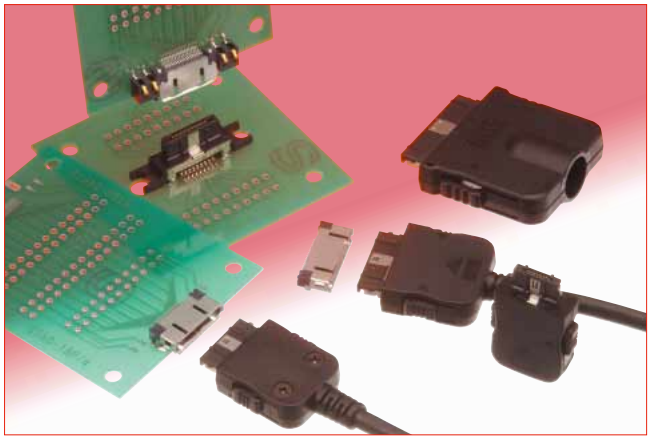
Interface Connectors for Portable Terminal Devices

ST Series



Overview

The ST Series interface connectors are specifically designed for use as Input/Output (I/O) connectors on portable information devices. They feature a unique structure with high strength which resists deformation and helps to prevent improper mating.
3.0 mm height and 0.5 mm contact pitch connector prevents EMI as well.
The ST Series can be used in wide range of applications such as DSC, PDA, laptop PCs, cellular phones, etc.

Features

1. Strong locking mechanism

To assure continuous reliability of the connection in an unpredictable consumer environment, mated connectors will withstand pull force of 49N max. applied in any direction. (Fig.1)

2. Prevention against reversed or angle insertion

Multiple polarization keys will not allow incorrect insertion of the mating plug.
In addition, contacts will not be damaged when the user attempts to insert only the corner of the mating plug. (Fig.2)

3. Optimal I/F for Small Devices

Plugs are 8 mm in height and 20 mm long (including covers), which is appropriate for small devices.
Receptacles feature the low height of 3 mm and the contact pitch of 0.5 mm. Their small size saves valuable space and contributes to a smaller device set.

4. Multiple Variations

A wide variations is available for supporting different types of peripheral devices. Examples include shielded plugs for data communication, non-shielded plugs for power charge, reversed plug types as shown in Fig.3 and cradle type connectors.

5. Cable Options

This connector uses a solder type termination, which allows you to apply flexible cable types.

Applications

Digital Still Cameras, Personal Digital Assistance, Notebook computers, Cellular phones, Smart phones and other portable devices requiring high reliability small size input/output connection.

■Product Specifications

Rating		
	Current rating 0.5A (1 A max. can be carried via 4 random contacts)	Operating temperature range : -30℃ to +80℃
	Voltage rating 100V AC	Storage temperature range : -40℃ to +85℃ (Note)

Characteristic	Specification	Conditions
1. Contact resistance	60mΩ max.	100mA DC
2. Insulation resistance	1,000MΩ min.	250V DC
3. Dielectric withstanding voltage	No flashover or insulation breakdown.	350V AC/ 1 minute
4. Mating/un-mating forces	Mating : 29.4N max.	With corresponding connector.
5. Durability (mating/un-mating)	Contact resistance : 100mΩ max.	10,000 cycles
6. Shock	No electrical discontinuity of 10μ sec. max.	Acceleration of 490 m/s², 11 ms duration, sine half-wave waveform, 3 cycles in each of the 3 axis.
7. Temperature cycle	Contact resistance : 100mΩ max. Insulation resistance : 1,000MΩ min.	Temperature : -55℃ → +5℃ to +35℃ → +85℃ → +5℃ to +35℃ Time (Minutes) : 30 → 5 → 30 → 5 5 cycles
8. Salt spray	No corrosions	5±1% salt water solution at 35±3℃ for 48 hours, after washing without salt, leave for 24 hours at room temperature
9. Lock strength	Fully inserted and locked corresponding connector. No physical damage or electrical failure.	Pull force : 49N max. applied in each of the 4 axis.
10. Vibration	No electrical discontinuity of 10μ sec. max.	Frequency : 10 to 55 Hz, single amplitude of 0.75mm, 2 hours, 3 axis.

Note: Includes temperature rise caused by current flow.

■Materials / Finish

● Receptacles and cradles

Component	Material	Finish	Remarks
Insulator	Thermoplastic compound, glass reinforced	Color: Black	UL94V-0
Contacts	Copper alloy	Contact area: Gold plated	————
Shield	Stainless steel	Tin alloy plating	————

● Plugs

Component	Material	Finish	Remarks
Insulator	Thermoplastic compound, glass reinforced	Color: Black	UL94V-0
Contacts	Copper alloy	Contact area: Gold plated	————
Shield	Stainless steel	————	————
Cover	Thermoplastic compound, glass reinforced	————	UL94V-0

■Product Number Structure

Refer to the chart below when determining the product specifications from the product number.
Please select from the product numbers listed in this catalog when placing orders.

● Receptacles

ST ❶ 60 ❷ - 18 ❹ P ❺ (30) ❼

● Plugs

ST ❶ 40 ❷ X ❸ - 18 ❹ S ❺ - CVR ❻ (30) ❼

● Plug - Cradle type

ST ❶ 80 ❷ X ❸ - 18 ❹ S ❺ (30) ❼

❶	Series name	: ST
❷	Termination type	
	60	: Right angle SMT
	40	: Solder type
	80	: Cradle, vertical, SMT
❸	Shield	
	X	: With shield
	Blank	: Without shield
❹	Number of contacts	
❺	Contact type	
	P	: Male contact (Receptacle)
	S	: Female contact (Plug)
❻	Plug type	
	CV	: Standard type, for top PCB mount
	CVR	: Reverse type, for bottom PCB mount
	CV1	: For larger diameter cables
❼	RoHS compliant	: (30)

● Reel Dimensions

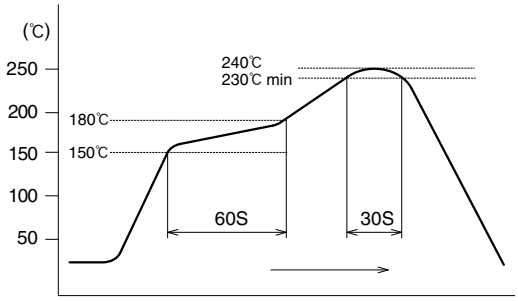
Recommended Temperature Profile (Lead-free soldering compound)



This measurement is performed on the contact lead section.
The temperature profile may vary due to external conditions such as the type of cream solder, manufacturer, and board size.
Please contact the solder manufacturer for their specifications.
