Description

The N252-024-HU Cat6 patch panel frees up valuable rack space by condensing 24 RJ45 ports into a Half-U panel. This unique panel features a built-in strain relief bar, allowing cables to be wire-tied (24 ties included) to the bar, taking stress off the 110 punch-down connector. The panel comes with 110-type termination, while meeting and exceeding EIA/TIA TSB-40 Cat6 connecting hardware specifications. Color coded for both EIA/TIA 568A and 568B installations. 24 ports ensure a wide range of plug-and-play options. The clear numbering on both the front and back of each panel gives you a quick and easy way to identify cable runs.

Features

- Unique 0.5U Height
- Category 6 Gigabit Rated
- UL approved
- Ports clearly numbered both on front and back
- Built-in strain relief bar
- Color coded label on back offers both EIA/TIA 568A & 568B wiring
- Metal frame EIA/TIA 2/32 spacing
- Rack mountable on a 19 rack (0.5U of space)
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases
