ATGBICS Universally Coded MSA Compliant Transceiver CWDM SFP+ 10GBase (40km, SMF, LC 1370nm, DOM)

ATGBICS Universally Coded MSA Compliant Transceiver CWDM SFP+ 10GBase (40km, SMF, LC 1370nm, DOM):

ATGBICS Universally Coded MSA Network Transceivers are specifically designed for use in 'open standard' platforms. Unlike some OEMs such as Cisco and HP, other network equipment manufacturers do not have specific firmware coding requirements for compatibility with their brand of networking equipment. This form of 'open coding' or 'generic coding' network infrastructure supports versatile purchasing options of network transceivers. Our plug and play Universally Coded Transceivers are also ideal for clients building their own bespoke infrastructure. Our product meets all Multi-Source Agreement (MSA) standards for this form factor and are uniquely serialised for full date code and BOM traceability. We proudly offer a compatibility guarantee and lifetime replacement warranty
