### 550VA 300W Line-Interactive UPS with 6 Outlets - AVR, 120V, 50/60 Hz, USB, Tower

#### MODEL NUMBER: SMART550USB2

Line-interactive UPS provides basic battery backup with automatic voltage regulation for your office computer or home theater setup.

#### Features

**550VA/300W/120V Battery Backup for PCs, Home Theater or Digital Signage**This 120V UPS with AVR protection provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The six-outlet 120V battery backup is ideal protection for your home office, media center or commerce components, including computers, routers, printers, HDTVs, Blu-ray players, game consoles, ATMs, security systems and digital signage equipment.

Allows Time to Back Up Critical Files During a BlackoutBackup support allows you to work through short power failures, and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but the line-interactive UPS system should keep an energy-efficient desktop computer with small LCD monitor powered as long as 45 minutes. During normal operation, incoming utility power keeps the replaceable internal battery fully charged, so backup power will always be available.

**Connects Your Equipment to 6 NEMA 5-15R Outlets** Four 5-15R outlets provide both battery backup and surge protection for your computer, monitor and other crucial components. The other two 5-15R outlets are surge-protected only for printers, scanners and other non-essential equipment. A high >95% line mode efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage ConditionsAVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The SMART550USB2 can correct brownouts as low as 89V and overvoltages as high as 145V back to nominal 120V power without drawing on the battery backup needed to support your equipment during a blackout.

**316 Joules Fight Back Against Unexpected Power Surges**A 316-joule surge suppression rating protects connected components from the harmful effects of power surges.

**Combats Electromagnetic Interference That Can Harm Equipment**Various electromagnetic and radio sources found in virtually every home and business can cause disruptive interference on the AC line. Known as EMI (electromagnetic interference) and RFI (radio frequency interference), this line noise is a

#### Highlights

- Protects equipment against blackouts, brownouts, overvoltages, surges and line noise
- AVR battery backup allows time to save files and safely shut down during blackouts
- 6 NEMA 5-15R outlets provide power to PC, home theater or digital signage equipment
- Easy-to-see LEDs indicate operating mode, low battery, overload and other vital data
- High >95% efficiency with low BTU ratings saves power and lowers your energy costs

#### Applications

- Protect your PC and other sensitive electronics against power surges, line noise, brownouts, overvoltages and blackouts
- Operate essential equipment during short-term power outages using battery backup power
- Shut down PCs, DVRs, routers and other equipment without data loss during long-term power outages

#### Package Includes

- SMART550USB2 550VA 300W Line-Interactive UPS with 6 Outlets
- USB cable
- Owner's manual

1000 Eaton Boulevard Cleveland, OH 44122 United States

common cause of performance problems and can lead to incremental hardware damage, data corruption and audio/video transmission problems. The SMART550USB2 incorporates technology that filters out disruptive line noise so that it won't affect your equipment.

**Easy-to-See LEDs Report Real Time UPS and Power Status**Front-panel LEDs provide UPS and site power information when the SMART550USB2 is operating in either on-line or battery power mode. They indicate operating mode, low battery, overload and fault condition. An audible alarm will sound in case of low battery, excessive load and fault condition.

**HID-Compliant USB Port Allows for Automatic Saves and Shutdowns**This port connects the SMART550USB2 to a computer running free downloadable PowerAlert® software to enable safe unattended file saves and system shutdown in case of a prolonged power failure. USB cable is included. The UPS works with Windows, Mac and Linux operating systems.

**Includes Power Protection for your Phone and Network Lines**Dual RJ45 jacks protect equipment against surges over a single telephone or network line. Note: not compatible with PoE (Power over Ethernet) applications.

**Tower Form Factor for Easy Placement in Your Workspace or Media Center**The long-lasting ABS housing fits easily on a desktop, shelf or anywhere else convenient to your workstation or home theater. The five-foot power cord with NEMA 5-15P plug connects to a properly grounded AC wall outlet.

### **Specifications**

| OVERVIEW                           |                           |  |
|------------------------------------|---------------------------|--|
| UPC Code                           | 037332221568              |  |
| UPS Type                           | Line-Interactive          |  |
| INPUT                              |                           |  |
| Input Phase                        | Single-Phase              |  |
| Rated input current (Maximum Load) | 6A                        |  |
| Nominal Input Voltage(s) Supported | 110V AC; 115V AC; 120V AC |  |
| UPS Input Connection Type          | 5-15P                     |  |
| Input Circuit Breakers             | 7A                        |  |
| UPS Input Cord Length (ft.)        | 5                         |  |
| UPS Input Cord Length (m)          | 1.5                       |  |
| Recommended Electrical Service     | 15A 120V                  |  |
| OUTPUT                             |                           |  |
