

ESD Fabric Wrist Strap - 6ft Ground Cord

Product Description

Our grounding wrist band and coil cord set features hypoallergenic silver-plated nylon thread for conductivity. The band is standard with a 4, 7 or 10mm male snap or a 4mm machined post.

The 2.5mm polyurethane coil insulation offers excellent coil memory. A swivel type banana jack increases coil life and prevents cord tangles.

The soft, blue woven fabric of the wrist band allows the skin to breathe and makes it very comfortable to wear.

Meets or exceeds requirements of ANSI ESD-S20.20 and ESDA Standard 1.1-2006

Key Features

- **Comfortable:** Made with a soft woven fabric that is comfortable to wear for long periods
- **Machined Snap:** Provides a more secure connection to the coil cord for greater reliability.
- **ESD Properties:** Uses highly conductive copper sulfide nylon thread for conductivity and it has a maximum resistance of 160 ohms.
- **Durable:** The coil cord is durable and has excellent coil memory. The fabric band can last for years.
- **Cost-Effective:** The one-size-fits-all wrist strap is versatile and is priced very competitively for the quality

Technical Specifications

Wrist Band

- Fabric: Polyester with silver-plated nylon
- Resistance: 100 ohms typical
- Color: Blue
- Snap: 4, 7 and 10mm
- Snap Release: 1-5 pounds
- Back Plate: Stainless Steel

Coil Cord

- Length: 5 feet, extended/12 feet, extended
- Resistor: 1 meg ohm
- Flex Life: > 50,000 flexes
- Color: Black
- Banana: Swivel type
